

Hernán Ainsa

Product Designer (*Design Technologist*)

UX/UI Design | Design Systems | Design-to-Code

Rosario, Argentina (Remote) · hernansahha@gmail.com · +54 341 570 5135

linkedin.com/in/hainsa · hernanainsa.webflow.io

Profile

Product Designer with 15+ years in IT and 8+ years leading end-to-end UX/UI and product design for web, mobile, and SaaS platforms. Combines user research, information architecture, and high-fidelity UI design with hands-on front-end development (HTML, CSS, JavaScript, React, Next.js, Tailwind CSS), enabling faster discovery-to-launch cycles and closer design-engineering alignment. Builds and scales design systems, component libraries, and design tokens to improve consistency, accessibility, and handoff efficiency.

Increasingly focused on AI-assisted design-to-code workflows (Figma MCP, Cursor, Claude Code) to shorten the gap between concept and functional product. PSPO I ([Scrum.org](https://scrum.org)) certified, experienced in Agile cross-functional teams with engineers, PMs, and stakeholders.

Core Skills & Expertise

- **Product & UX Design:** User research, stakeholder interviews, user flows, information architecture, wireframing, usability testing, MVP definition, feature prioritization, product strategy, outcome-driven iteration
 - **UI Design & Design Systems:** High-fidelity UI design, interaction design, interactive prototyping, design systems, component libraries, design tokens, style guides, accessibility (WCAG), responsive design
 - **Design Technology / Front-End:** HTML5, CSS3, JavaScript, jQuery, Angular.js, React, Next.js, Tailwind CSS, Ant Design, Webflow (no-code), Vercel, GitHub
 - **Tools:** Figma (Auto Layout, Variables, Dev Mode), Adobe XD, Photoshop, Illustrator, Affinity, Mural, Notion, PostHog (event tracking, conversion funnels)
 - **AI-Assisted Workflow:** Figma MCP, Cursor AI, Claude Code, Figma Make, v0, Antigravity, Devin
 - **Methodologies:** Agile / Scrum (PSPO I Certified), design-dev handoff, cross-functional collaboration
-

Work Experience

Co-Founder · Product Designer / Design Technologist — Side Project

Kier Studio · kierstudio.com · Remote · Jun 2025 – Present

- Co-founded a small side-project studio to practice end-to-end ownership of UX/UI design and AI-assisted front-end implementation, taken on selectively alongside full-time consulting work at OZ.

- Designed and built landing pages and small MVPs using Figma for design and Next.js + Tailwind CSS for development.
- Adopted AI-assisted design-to-code tools (Figma MCP, Claude Code, Cursor) to accelerate prototyping and reduce production time.
- Instrumenting the studio's own site with product analytics (PostHog) to inform ongoing UX and conversion decisions.

Senior UX/UI & Product Designer – Consultant

OZ Digital Consulting (AAJ Technologies) · Remote · May 2017 – Mar 2026

- Led end-to-end UX/UI and product design across OZ's consulting engagements — from discovery and stakeholder research through launch — for clients including Hard Rock, TopBuild, and OnBoard.
- Conducted stakeholder interviews and user research, translating findings into prioritized, MVP-ready features and user roles.
- Built and scaled design systems and reusable component libraries, improving design-to-dev handoff efficiency and consistency, including stabilizing an existing system after joining a project mid-development (IssuTrax).
- Delivered high-fidelity wireframes and interactive prototypes (Figma, Adobe XD) that guided product decisions and validation.
- Partnered directly with engineering teams (HTML, CSS, JavaScript, React), including an AI-assisted design-to-code workflow (Figma MCP → React, design tokens) on a SaaS campaign-management platform.

Web UI Developer

Globant · Rosario, Argentina · Mar 2010 – May 2017

- Developed responsive, accessible web applications using HTML5, CSS3, JavaScript, jQuery, and Angular.js.
- Worked within cross-functional Agile/Scrum teams, building the front-end foundation that later informed a design-engineering hybrid career path.
- Applied SEO, accessibility, and performance-optimization standards across production web applications.

Visual Designer & Front-End Developer (Freelance)

ciudadEsférica · Rosario, Argentina · 2008 – present

- Delivered freelance web design, front-end development, and visual identity work for clients including John Deere, Holy Beer Hotel, and Santa Fe Government projects.
